

JOB BRIEF: SOFTWARE ENGINEER

If you are passionate about solving real world business problems, using data and next gen technologies, we would like to talk with you. We have launched a new program aimed at providing exciting and accelerated career opportunities to bright and young technical minds across the country - Just like you.

In this role, you will be mentored and trained to take up a position of responsibility early in your careers. You will have the opportunity to work with our customers on exciting software development and innovation projects.

COMPANY DESCRIPTION

[ValueLabs](#) is a leading global technology company specializing in Digital Enablement and Product Development. Through our unique OneCompany™ model of engagement, we help companies unleash the potential of digital technology to achieve real business outcomes, make processes frictionless and lead in disruptive times. We also believe that talent growth is imperative for business growth and hence, we enable our people to reach their full potential.

ValueLabs has a presence across 25+ countries. With a rich international clientele, we are predominantly spread across four regions – North America, Europe & UK, Australia & New Zealand and Middle East & Emerging markets.

ROLES & RESPONSIBILITIES

- Accomplish engineering and organization mission by building solutions that deliver desired results as and when needed.
- Develop innovative software solutions by analyzing information; conferring with users; studying systems flow, data usage and work processes.
- Document and demonstrate solutions by developing documentation, flowcharts, layouts, diagrams, charts, code comments and clear code.
- Prepare and install solutions by determining and designing system specifications, standards and programming.
- Improve operations by conducting systems analysis; recommend changes in policies and procedures.
- Enhance knowledge by learning state-of-the-art development tools, programming techniques, and computing equipment, reading professional publications, and participating in educational opportunities.
