Job Location	1) Bengaluru, Karnataka, India

Job description

JUSPAY is hiring for 2020 batch B.E/B.Tech Graduates, To participate in the JUSPAY drive 2020 batch the candidates should appear for the MyAnatomy MAPIT lite Online Test.

MAPIT Online Test Date : 24th August'19

Based on the online test scores students will be shortlisted for the further hiring process.

Drive Date & Venue : Will update shortly.

About the Role For - FP - Engineer for Frontend

In this role you will,

- Learn how to build APIs using concise equation like code using PureScript and Presto Backend framework.
- Build and maintain large scale, reliable distributed systems using Kubernetes, NodeJS, Cassandra, AWS, GCP etc.
- Collaborate with product managers and downstream API providers like banks and other payment gateways, with UX teams... understand the big picture and influence the product direction.
- Payments has too much diversity.. But the concepts have a lot similarity underneath. You job will be geared towards constantly looking for common hidden abstractions and create reusable code across various payment methods.

About the Role : FP-Engineer for Backend

In this role you will,

- Learn how to craft great user experiences by writing concise and elegant code using Presto and PureScript
- Participate in UX discussions with product managers and designers and have the opportunity to influence the final product
- Dissect static designs, discover abstractions and create reusable UI components
- Write the code that will power the next generation of payment experiences for India's top online commerce merchants

Apply if you are :

- Passionate about programming and especially, FP interests you.
